Bullied Targets and the Occupy Movement

WBI 2011-K Instant Poll

WBI Instant Polls are online single-question surveys that rely upon self-selected samples of individuals bullied at work (typically 98% of any sample comprised of currently and formerly bullied individuals). No demographic data are collected, but IP respondent samples are typically 80% or higher female. Our non-scientific Instant Polls accurately depict the perceptions of workers targeted for bullying at work as contrasted with the views of all adult Americans in our scientific national surveys.

November 2011 WBI Instant Poll, $n = 230$

The question asked: “Do you support the Occupy movement that is expressing outrage over economic inequity?”

76% said Yes. We broke support and disagreement into sub-categories. See the results below.

Response options and their corresponding percentages were:

Yes I support and I agree with the tactics .50

Yes I support but I don't agree with the tactics .173

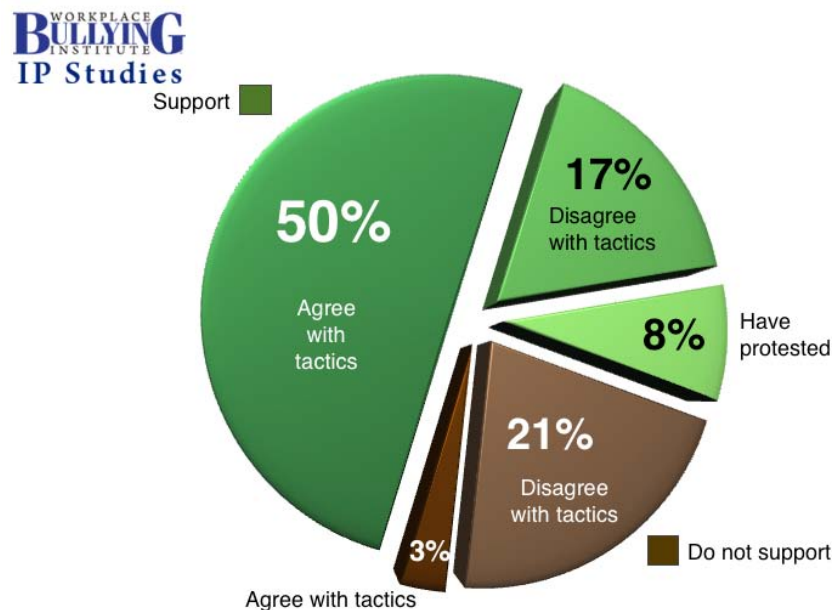

Yes and I have participated in the protest .082

No, disagree with message and tactics used .213

No – don't support message – but no problem with the tactics .030

Yes: .757

No: .243
